

ALBATROS

The **Albatros** Collection was named for its likeness in color to the Albatross species of bird. The Albatross is an endangered species known for its white feathers, which was an inspiration for this material that exhibits a **crisp, white color** with **dark grey veining**. Great for **interior** and **exterior applications**. Can be used for **floors, walls, counter-tops** and **many other surfaces**. Impervious porcelain is resistant to stains, scratches, chemicals, extreme temperatures and UV exposure.

Available in: 48"x96"x $\frac{3}{8}$ " (9mm-thickness)
