## QUARTZ SLAB COLLECTION

BY

# CARE & MAINTENANCE

*Quartz is NON-POROUS and EASY TO CLEAN. It is ideal for KITCHEN and BATH applications. This product does NOT REQUIRE SEALING. An ENGINEERED quartz surface, is a blend of NATURE and TECHNOLOGY, combining beauty and functionality in a HIGH-PERFORMANCE SURFACE. PRIMO BELLA® QUARTZ surfaces are extra-durable and RESISTANT to SCRATCHES and CHIPPING. Its DENSE COMPOSITION also makes our Quartz HIGHLY RESISTANT to STAINING.*

## DAILY MAINTENANCE

*Quartz is HEAT-RESISTANT; however, it is always recommended to set HOT SKILLETS, PANS, CROCK POTS, GRIDDLES, ELECTRIC SKILLETS and any type of ELECTRIC COOKER on HOT PADS or TRIVETS, NOT DIRECTLY on the QUARTZ SURFACE. This is recommended, to PREVENT the slab from CRACKING due to the HEAT. AVOID EXPOSING your quartz surface to CHEMICALS, especially PAINT REMOVERS or FURNITURE STRIPPERS. Keep NAIL POLISH REMOVERS, ACETONE ALCOHOL, THINNERS, DETERGENTS CONTAINING BLEACH, LAUNDRY BLUING, HIGHLY ALKALINE LIQUIDS such as BLEACH, CAUSTIC SODA or OVEN CLEANERS, ACIDS, OILY SOAPS, DESCALERS, MARKERS or INK, ABRASIVE and MICRO-ABRASIVE DETERGENTS, AWAY from the SURFACE. If any of the substances listed above come into contact with your quartz surface, RINSE the EXPOSED SURFACE IMMEDIATELY and THOROUGHLY with plenty of CLEAN WATER. Our Quartz is HIGHLY RESISTANT to SCRATCHING, but NOT SCRATCH-PROOF. It is recommended to ALWAYS USE CUTTING BOARDS and AVOID CUTTING and PREPARING FOOD DIRECTLY on the QUARTZ SURFACE. It is also recommended to AVOID using HIGHLY ABRASIVE SPONGES that may scratch the surface. It is best to AVOID the EXPOSURE of UV RAYS on your quartz surface to protect the surface from any possible change in the color over time.*

## DAILY CLEANING

*Quartz is a LOW MAINTENANCE SURFACE and can be cleaned with extreme ease. For routine cleaning, use a DAMP CLOTH or PAPER TOWEL and, if necessary, any PH NEUTRAL CLEANER or GENTLE SOAP and WATER is recommended. Spread the cleaner on the surface, after a few seconds wipe off with a damp cloth, then carefully dry the surface.*

## CLEANING STAINS

*Quartz countertops are HIGHLY RESISTANT to STAINING, including those from common HOUSEHOLD SPILLS, such as TEA, COFFEE, LEMON JUICE, SODA, FRUIT, VEGETABLE JUICE, OLIVE OIL or GREASE SPILLS. However, it is always important to WIPE UP the STAIN as QUICKLY as POSSIBLE. For STUBBORN or DRIED SPILLS, DEEP CLEAN the surface by SPRAYING a NEUTRAL PH CLEANER, specifically designed for deep-cleaning quartz-based engineered countertops, and CONSISTENTLY SPREAD it with a NON-ABRASIVE CLOTH. Allow the cleaner to work for 5 MINUTES, then RINSE THOROUGHLY with water until the cleaner is completely removed. REMOVE the EXCESS WATER with a cloth and DRY. If the stain is not completely removed, repeat the entire process. DO NOT use STRONG, ABRASIVE CLEANING PRODUCTS. Always FOLLOW the MANUFACTURER'S DILUTION INSTRUCTIONS and RECOMMENDATIONS.*
