ALPHA Bianco 12"x 24" & 2"x 2" Mosaic Pattern

ALPHA Anthracite 12"x 24"

Elegance and polished surfaces are the characteristics that identify the **ALPHA Collection**, a series that reinterprets marble, the **most luxurious of natural stones**, in a contemporary style. This collection is characterized by a **slightly wavy** graphic, in which darker areas and light vein marks alternate to create beautiful movement and design. Great for **interior and exterior living spaces**. Porcelain tiles can be used for **floors, walls, counter-tops and many other surfaces**. Impervious porcelain is resistant to stains, scratches, chemicals, extreme temperatures and UV exposure.
